**PROGRAM:** David Pearce of Appliance Connection presented. David is one of the newer members of the Club. He is from West Blocton, graduated from Tuscaloosa Christian School, and went to college in Pensacola. His wife is going into photography. Appliance Connection has been a family business, and David is 3<sup>rd</sup> generation. It started at D&R Appliance in 1993. In 2003 it centralized its locations and now uses the name Appliance Connection. David worked in Parts, Sales, and is now in Management. Appliance Connection is a sales, service, and installation company, and the territory they serve is generally from Calera to Jasper. They have sell and service new and used appliances. Manufacturers had to shut down during COVID, and that drove demand for service. This is what kept Appliance Connection going. There is a shortage of parts though, and manufacturers say that normal production should be here by the start of 2022. They do a lot with rental and management companies as well. How can you help David? If you know someone or a company that needs appliances and/or service of those appliances, call him. The brands David's company uses are Whirlpool, Maytag, Kitchen-Aid, and Frigidaire. They can service all brands except GE and LG. David says LG and Samsung are the worst ones to service because Samsung always breaks, and LG has bad tech support. GE is also getting worse since they were

bought out. Tommy Heard gave out a compliment about the ice machine he got from Appliance Connection, and Mike Lorino offered compliments of David and the company as well.

**SERGEANT-AT-ARMS:** Gary Sheffer presided. Tom Meter and Darryl White were late (\$1). Darryl White and Joseph Habshey left early (\$1). John Wolsoncroft aka John Steppenwolf left early and he wasn't wearing his tie (\$2). Sam Sciara did not have on his tie (\$1).
