PROGRAM: Katie Britt - U.S. Senate Candidate. Katie started off by praising the late Joe Fuller and his influence on her and state level politics in general. She praised the CSC for it's unique quality of being one of the only clubs of its kind, and was honored to speak for us. Katie brought her husband Wesley, former NFL player and praised his efforts during her campaign. From Enterprise, AL, Katie is the only candidate running in 2022, born and raised in this state. She loves Alabama and loves the people and communities here. She emphasized Faith, Family, and Freedom as being her focus points for her entire campaign. Both of her parents were small business owners, so she understands the importance of keeping government away while allowing small business to thrive. Katie attributes both of her children to why she decided to run in 2022. "Doesn't God call you to do hard things Momma?" - Katie's Daughter. She emphasized the need for "REAL" leaders in Washington, the need to seal our borders, the need to treat our returning troops with respect and dignity, and the need to have a powerful voice for the State of Alabama. Katie was an incredible speaker, and it was a true pleasure to hear how passionate she is when it comes to the real issues. She captivated the CSC crowd and earned my vote yesterday. She did an in-depth Q&A with the CSC brother to finish. Just WOW. Vote Britt.
