PROGRAM: Gary Palmer – US Congressman District 6

Darryl White introduced the Congressman. Gary misses Joe Fuller dearly; one of the best men he ever knew. Gary thinks Mike Johnson is the right guy for Speaker of the House. Gary knew Mike for many years before he was elected. Gary addressed concerns over the budget that Biden is not currently acting on. Gary used to be on the committee that sets the federal budget, but he isn't any longer. "Biden is an idiot." This is the most destructive cabinet in U.S. history. The election in Argentina is huge. People in other countries are trying to push China out. We need to stop relying on China and other countries are realizing it. Trump is a heavy supporter of less reliance on China. There are immediate opportunities to get our country back on track. Gary took lots of questions.

SERGEANT AT ARMS: Rab Stewart was brutal, especially to Andy Evans.
